

APF SUPER BASE NEUTRALIZER

PRODUCT DESCRIPTION AND USE

APF Super Base Neutralizer is a solution of Potassium Hydroxide and water designed for neutralizing acidic surfaces after acid etching or acid staining. It is more effective than ammonia and has less odor. Add 8 oz. to 4 gallons water and apply to surface using a sprinkling can. Scrub well using a stiff bristled broom and rinse before the solution can dry on the surface.

Handling Precautions

May cause skin and eye irritation. Avoid contact with skin and eyes. Read Material Safety Data Sheet before using.

WARRANTY INFORMATION

08/02

Arizona Polymer Flooring guarantees that this product is free from manufacturing defects and complies with our published specifications. In the event that the buyer proves that the goods received do not conform to these specifications or were defectively manufactured, the buyer's remedies shall be limited to either the return of the goods and repayment of the purchase price or replacement of the defective material at the option of the seller. ARIZONA POLYMER FLOORING MAKES NO OTHER WARRANTY, EXPRESSED OR IMPLIED, AND ALL WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE ARE HEREBY DISCLAIMED. Arizona Polymer Flooring shall not be liable for damages caused by application of its products over concrete with excessive moisture vapor transmission or alkalinity. Arizona Polymer Flooring shall not be liable for any injury incurred in a slip and fall accident. Manufacturer or seller shall not be liable for prospective profits or consequential damages resulting from the use of this product.
